### Conference Call

Eledon will hold a conference call on November 7, 2025 at 8:00 a.m. Eastern Time to discuss the Phase 2 BESTOW trial results presented at Kidney Week. The dial-in numbers are 1-800-717-1738 for domestic callers and 1-646-307-1865 for international callers. The conference ID is 92427. A live webcast of the conference call will be available on the Investor Relations section of the Company's website at [www.eledon.com](http://www.eledon.com). The webcast will be archived on the website following the completion of the call.

### About Eledon Pharmaceuticals and tegoprubart

Eledon Pharmaceuticals, Inc. is a clinical stage biotechnology company that is developing immune-modulating therapies for the management and treatment of life-threatening conditions. The Company's lead investigational product is tegoprubart, an anti-CD40L antibody with high affinity for the CD40 Ligand, a well-validated biological target that has broad therapeutic potential. The central role of CD40L signaling in both adaptive and innate immune cell activation and function positions it as an attractive target for non-lymphocyte depleting, immunomodulatory therapeutic intervention. The Company is building upon a deep historical knowledge of anti-CD40 Ligand biology to conduct preclinical and clinical studies in kidney allograft transplantation, xenotransplantation, and amyotrophic lateral sclerosis (ALS). Eledon is headquartered in Irvine, California. For more information, please visit the Company's website at [www.eledon.com](http://www.eledon.com).
